# UNIQUELY LA

---

Welcome to the heart of Los Angeles. Located just minutes from downtown, Cal State LA connects students with a global city. You can learn about the world just by being here. With about 27,000 students pursuing their degrees at Cal State LA, our university is a vibrant, urban campus but with a small school feel.

Why do students like you choose Cal State LA?

- We're ranked #1 in upward mobility. Beyond exceptional degree programs, we make sure you are ready for the workforce and career life.
- Location, location, location. Los Angeles offers countless opportunities for internships and networking in one of the biggest (and best) cities in the United States.
- Our alumni network is 250,000 strong. Making the right connections early in your college years will provide benefits to you for decades to come.

Meet new people and explore new cultures through classroom discussions and by venturing into the dynamic communities that surround us.

You're in Los Angeles—the possibilities are endless.

“From day one, I felt so welcome here. I’ve had nothing but a great experience. It felt like it was just one big family.”

- Heather Williams

While working as a theatre shop assistant on campus, I learned all about different aspects of theatre—beyond my passion, which is audio—that added hands-on skills to the knowledge I learned in the classroom. My on-campus work experience helped me become valued and versatile in my career now that I’ve graduated.

- Kaitlin Ragland

## ACADEMICS

Discover your passion through one of our 100 undergraduate programs across nearly every field. Expand your mind with engaging courses and cutting-edge research opportunities. At Cal State LA, we put our students’ academic success, career-readiness, and well-being at the center of everything we do. We provide opportunities for our students to conduct research or partake in internships at the undergraduate level, to help prepare for their future careers.

## HOW WE SUPPORT YOU

**Educational Opportunity Program:** Works closely with undergraduate students from California to overcome personal challenges and economic barriers to attaining higher education.

**Veterans Resource Center:** Serves military-connected students by providing academic and professional resources for their development and success.

**First Year Experience:** Provides seminars and workshops to share knowledge of campus resources, events, and how to succeed in college.

**Dreamers Resource Center:** Serves undocumented students with information and resources to promote college admissions, persistence, graduation, graduate school, and professional careers.

**WellBeingU:** Provides resources like guided meditation and stress coping workshops to support students' inner well-being.

**Career Center:** Along with offering on-campus job opportunities, the Career Center connects students with off-campus employers and empowers students to make enlightened career decisions. Students also learn the skills needed to obtain employment in a rapidly changing, complex, and competitive world.

**Student Success/Advisement Center:** Provides students with effective academic advising services, resources, and planning tools to support their timely graduation.

**Support Services:** We offer laptops and hotspots on loan for students who do not have access to a computer at home. The Cal State LA Food Pantry is here to provide you pre-filled food pantry bags.

"Cal State LA was the first time I really understood that being a scientist wasn't just this far away job that only other people could achieve. I could actually be paid to do research. That this could be a career for me."  
- LeAnn Zuñiga, 2019

"What I like best about Cal State LA is how the curriculum is designed to be hands on. The skills and knowledge that I learned in the university will help me launch into my career when I graduate and it will allow me to achieve the personal and professional goals that I set for myself when I first came into the university."  
- Brajohn Hicks, 2021

"My relationships with my professors helped connect me with opportunities such as the Hispanic Association of Colleges and Universities Student Delegate program and The PhD Project. Both conferences helped me build a network and realize the opportunities available to me that I didn't know I had before."
